FOR THIS SEASON**

ANOTHER OUTSTANDING KUNDERD VALUE FOR 1935 — This offer is in line with our general policy of giving our customers the best possible values. Those who purchased collections earlier in the season know the real worth of these money saving offers.

WE RESERVE NOTHING — To make this collection possible we will set aside bulbs from our very finest named kinds. At least 25 different varieties will be in the collection, although none of them will be labeled. The superb quality and fineness of these delightful gladioli is unparalleled. You simply must plant one or several of these collections and get the thrill their wondrous color combinations are sure to give you.

REGARDING SIZE OF BULBS — Plant some Gladioli each week till the early part of July. They will then provide you with gorgeous blooms right up till heavy frosts occur. Gladioli blooming late in the fall are exceptionally beautiful. Their petals glisten under the fall sun and take on a waxy, velvety appearance. All the bulbs we send will bloom this year. They will all be one inch and up in diameter and these are the sizes which produce the finest blooms.
